

OPTIMIZE

AGZ RESTORE PROGRAM

TRAILBLAZER® AGZ-C, AGZ-D, AGZ-E

MAXIMIZE EQUIPMENT LIFE & AVOID COSTLY DISRUPTIONS WITH THE TRAILBLAZER® AGZ RESTORE PROGRAM

Maximize the lifespan of your equipment and safeguard your operations from costly disruptions with our AGZ Restore Program. Our expert service professionals go beyond routine maintenance by conducting thorough evaluations and factory checks on critical system components while proactively identifying and replacing at-risk components before performance is compromised. This tailored approach detects and resolves potential issues early, saving you valuable hours of downtime and thousands of dollars in emergency repairs during peak demand periods.

CUSTOMER BENEFITS INCLUDE

EXTENDED EQUIPMENT LIFE

- Keep your equipment running longer

REDUCE COSTS & INTERRUPTIONS

- Get equipment back to factory specs, minimizing reactive service later

MITIGATE RISK

- Minimize the potential of catastrophic failures

NEW UNIT SERIAL NUMBER & NAMEPLATE

- Allows project funding to come from capital budgets vs. maintenance budgets

OUR APPROACH

1

Inspect

Let our factory-trained experts inspect the integral components of your AGZ unit to ensure peak performance and longevity. Our comprehensive evaluation checks refrigeration temperatures, system pressures, electrical components, and sequence of operations, ensuring all critical elements meet factory specifications.

2

Identify

By collaborating with our factory experts after a comprehensive evaluation, we help you identify necessary replacements and improvements, minimizing risk and striving for maximum lifespan and reliability.

3

Restore

Upon identifying areas of risk, we proactively replace key components of your unit with advanced controllers, flow switches, sensors, transducers, control relays, and more. This restores factory-like performance, helping to maximize efficiency and reliability.

4

Review

Our technicians present key findings, mitigate any identified risks, and confirm the agreed-upon scope of work.

Save Big On Optional Upgrades

Take advantage of additional upgrades while your equipment is being serviced. Not only will you save on labor since your equipment is already opened; upgrading your equipment could allow it to qualify as a new depreciating asset.

- ▶ Condenser Fans
- ▶ Fan Blades
- ▶ Compressors
- ▶ Filter Dryer Cores
- ▶ Crankcase Heaters
- ▶ VFD for Low Ambient Kits
- ▶ Motor Protectors
- ▶ Cabinet Integrity Enhancements
- ▶ Condenser Coil Replacement
