

Experience interactive innovation with Daikin technology.

Entertain with a world-class view of the Manhattan skyline.

Solutions Plaza features full-sized product displays and a high-tech customer experience.

Each year, hundreds of customers experience our high tech solutions and equipment at Solutions Plaza. This showcase of Daikin technology features full-sized product displays and interactive information kiosks. Visitors walk away with a complete understanding of the latest and greatest of Daikin equipment, systems, and technology.

Experience Daikin's new technologies first hand with our high tech showroom that contains all of our newest products. Solutions Plaza gives engineers, owners, contractors, architects and customers the knowledge they need to have confidence in their buying decision. With customer visits, remote witness tests, continuing education seminars, industry meetings, and much more, Solutions Plaza is the perfect way to demonstrate the Daikin difference. Each customer will have a customized experience based on their project needs.

Occupying the 21st floor of the Exchange Place Centre, Solutions Plaza overlooks the Hudson River. The showroom features a skyline view of Manhattan including One World Trade Center, Statue of Liberty, and Ellis Island. The location has direct access to rail transportation, ferry boats and is easily accessible to major airports.

Schedule a visit today.

Transportation

Subway: We are at the Exchange Place stop on the PATH Train. Path Trains originate in Mid-town Manhattan and at the new World Trade Center Oculus located in lower Manhattan.

(<http://www.panynj.gov/path/maps-schedules.html>)

Ferry: We are located 3 blocks north of the Paulus Hook Ferry Terminal. We are 5-15 minutes from several NY Waterway Terminals on the west side of Manhattan. Those terminals are most easily reached by taxi. Routes schedules and fare information can be found at the NY Waterway site. Please note some ferries only run during rush hour.

(<http://www.nywaterway.com/PaulusHookTerminal.aspx>)

Car: Although the Daikin Solutions Plaza is only minutes from the Holland Tunnel, car service between NY and NJ tends to be an expensive transportation option and travel time can vary greatly based on current traffic conditions and time of day.

Parking

There is parking available inside of the building. To access the garage, travel down Montgomery Street and turn left onto Hudson Street.
(Please note, Montgomery Street is parallel to Christopher Columbus Street)
