

YOUR TRUSTED HVAC PARTNER

With a long history of delivering innovative solutions in the region, Daikin Applied New York is your go-to partner for comprehensive HVAC services. We specialize in designing and installing systems for a wide range of projects, including multi-family housing, commercial buildings, data centers, and institutional buildings.

APPLIED SOLUTIONS

Air-cooled / water-cooled chillers (scroll, screw, magnetic bearing and centrifugal), air handlers, packaged rooftop systems, water source heat pumps, unit ventilators, and fan coil units.

HEAT PUMP SOLUTIONS

Air and water source heat pumps for all your electrification and decarbonization project needs.

VRV SOLUTIONS

VRV (Variable Refrigerant Volume) equipment and ductless mini-split systems. Available in air-cooled, water-cooled, heat recovery and heat pump systems.

VENTILATION SOLUTIONS

Energy Recovery Ventilators (ERVs), fixed plate cores, heat recovery wheels

DOMESTIC HOT WATER SOLUTIONS

Low ambient air source heat pumps, producing HW up to 190°F

GLOBAL LEADER — LOCAL EXPERTISE

As the world's leading provider of HVAC, Daikin is committed to delivering sustainable, efficient, and reliable solutions. Our New York office is home to a team of experienced engineers who specialize in designing and implementing custom solutions tailored to meet your project needs. From large central plants to geothermal loops and domestic hot water systems, we offer a comprehensive range of options to optimize energy consumption, improve indoor air quality, and comply with local regulations.

MANUFACTURERS REPRESENTED

A member of Arizon Companies. St. Louis, Missouri-based manufacturer of HVAC products designed for large, open-spaced industrial and warehouse applications.

A member of Arizon Companies. Illinois-based manufacturer of highly-custom heating and cooling solutions for commercial and industrial applications.

Part of Blauberg Group of companies. U.S.-based manufacturer of Energy Recovery Ventilators and Custom Modular Air Handling Units.

PHI Certified Manufacturer based in Toronto, Canada. Provides 100% outside air energy recovery systems that integrate with VRV/VRF systems.

Modular chiller heater manufacturer located in Tennessee. Leading provider of air and water cooled modular heat pump and geothermal chiller solutions.

Industry-leading unit ventilator manufacturer based in Toronto, Canada since 1971. Specializes in standard and wall-mounted unit ventilators.

Based in Phoenix, Arizona. A fully-custom air handling manufacturer including DX solutions and specializing in dehumidification solutions.

Leading unit ventilator manufacturer based in Bryan, Ohio since 1914. Specializes in vertical wall-mounted self contained unit ventilators.

AUTOMATION CONTROLS CAPABILITY

Scalable, cloud-based equipment and BAS instantly and easily optimize the performance of Daikin HVAC units and any HVAC ecosystem. Real-time analytics provide effortless insight and optimization for energy, indoor air quality and sustainability.

SERVICE AND AFTERMARKET

We offer full field services and local inventory of heating and cooling equipment and critical parts from brands you know and trust to keep your building in full operating. If we do not have it locally, Daikin's world-class national warehousing will deliver to you fast.
